Daily Scrum Meeting #1 – October 10, 2026

Project: Clinic Appointment System
Meeting Type: Daily Scrum #1
Duration: 14:28 minutes
Platform: Google Meet

Attended by:

Name	Role
Mineh Jami	Scrum Master
Sewara Rashidi	Team Developer
Sonbol Almas	Team Developer

Meeting subject:

The purpose of the meeting was to share the progress made by the team in the last day. We also planned to discuss the steps on how to proceed next.

Meeting Summary:

Mineh Jami (Scrum master): Introduced the meeting, shared the sprint backlog, inquired about problems and blockers and clarified the expectations for the next day.

Sewara Rashidi(Team developer): Shared a document of the task distribution among the development team and explained it in full detail. She clarified the tasks done by her, namely selecting technology stack, setting up GitHub and code editor, setting up development environment in the backend and discussed backend/database/modeling responsibility

Sonbol Almas(Team developer): She clarified the tasks done by her, namely, the development environment in the frontend, the planning of the use-case and sequence diagrams and discussed frontend/UI/modeling responsibility.

Key Points of the meeting:

- Division of responsibilities completed.
- Each day's tasks determined.
- Backend tools work correctly.
- User registration sequence model and diagram completed and pushed to GitHub.
- Local development environment working correctly.
- Sprint 1 UI/UX completed
- Overall clinic appointment use case diagram completed.

Notes:

The tasks and assignment of responsibilities determined in the meeting are not concrete. They could change as the team works.
