Sprint 2 Daily Scrum Meeting #1 – October 17, 2026
Project: Clinic Appointment System
Meeting Type: Daily Scrum #1
Duration: 13:24 minutes
Platform: Google Meet

Attended by:

Name	Role
Mineh Jami	Scrum Master
Sewara Rashidi	Team Developer
Sonbol Almas	Team Developer

Meeting subject:

The purpose of the meeting was to share the progress made by the team in the last day. We also planned to discuss the steps on how to proceed next.

Meeting Summary:

Mineh Jami (Scrum master): Introduced the meeting, shared the sprint backlog, inquired about problems and blockers and clarified the expectations for the next day.

Sewara Rashidi(Team developer): Sewara focused on the backend and database development. She reviewed the relevant user stories and Product Owner clarifications, planned database additions, updated the schema, established relationships and foreign keys, implemented the basic doctor-availability backend, secured availability functionality for doctors, and began the SD-04 Doctor Availability sequence model.

Sonbol Almas(Team developer): Sonbol focused on the frontend and interface design. She reviewed the UI requirements, designed the Doctor Availability interface, added availability navigation to the Doctor Dashboard, built the availability form interface, prepared the patient doctor-search page structure, and updated the Use Case Diagram as needed.

Key Points of the meeting:

- Review user stories and requirements
- Task distribution was reviewed
- Database and backend planning was explained
- Doctor availability access control was clarified
- Frontend design and navigation were discussed

- Coordination between frontend and backend
