Sprint 2 Daily Scrum Meeting #2 – October 18, 2026
Project: Clinic Appointment System
Meeting Type: Daily Scrum #2
Duration: 13:24 minutes
Platform: Google Meet

Attended by:

Name	Role
Mineh Jami	Scrum Master
Sewara Rashidi	Team Developer
Sonbol Almas	Team Developer
Husna Zala Khan	Product Owner

Meeting subject:

The purpose of the meeting was to share the progress made by the team in the last day. We also planned to discuss the steps on how to proceed next.

Meeting Summary:

Mineh Jami (Scrum master): Introduced the meeting, shared the sprint backlog, inquired about problems and blockers and clarified the expectations for the next day.

Sewara Rashidi(Team developer): Sewara explained how she worked on the backend for doctor search and US-06. She implemented functionality to retrieve doctors, process search criteria, return matching doctor records, retrieve selected doctors' information and current availability, and enforce patient authentication.

Sonbol Almas(Team developer): Sonbol explained how she worked on the frontend for doctor search and doctor details. She built the doctor-search.php page with a search input and filters, a matching-doctors card or table, and a "View Doctor" action. She also built the doctor-details interface to display professional information, available dates and times, and a button or link directing patients to available appointment slots.

Key Points of the meeting:

- Reviewed the requirements for doctor search (US-05) and doctor details (US-06).
- Discussed backend functionality for retrieving doctors, processing search criteria, and displaying matching results.
- Planned retrieval of doctor information and current availability from the database.
- Discussed patient authentication and access control.
