Sprint 2 Daily Scrum Meeting #4 – October 20, 2026

Project: Clinic Appointment System
Meeting Type: Daily Scrum #4
Duration: 6:22 minutes
Platform: Google Meet

Attended by:

Name	Role
Mineh Jami	Scrum Master
Sewara Rashidi	Team Developer
Sonbol Almas	Team Developer

Meeting subject:

The purpose of the meeting was to share the progress made by the team in the last day. We also planned to discuss the steps on how to proceed next.

Meeting Summary:

Mineh Jami (Scrum master): Introduced the meeting, shared the sprint backlog, inquired about problems and blockers and clarified the expectations for the next day.

Sewara Rashidi(Team developer): During the sprint meeting, Sewara explained that she had completed the backend and security review, checked database consistency, and performed authorization tests to ensure that users had access only to their permitted features. She also mentioned that she had finalized the Sprint 2 sequence diagrams and documented the test results, including any issues identified during testing.

Sonbol Almas(Team developer): Sonbol reported that she had reviewed the application's responsive design to ensure it worked properly across different screen sizes. She also explained that she had tested the navigation between pages and checked frontend form validation to make sure users received appropriate error messages. Additionally, she confirmed that she had completed the final review of the Use Case Diagram to ensure it accurately reflected the application's functionality.

Key Points of the meeting:

- The backend security measures and authentication processes were reviewed.
- Database consistency and data management were discussed.
- User authorization and access permissions were explained.

- The functionality of frontend navigation and form validation was reviewed.
- The completion of UML sequence diagrams and the Use Case Diagram was discussed.
- The results of software testing and identified issues were presented.
