Sprint 2 Review meeting – October 21, 2026

Project: Clinic Appointment System
Meeting Type: Sprint Review
Duration: 23:37 minutes
Platform: Google Meet

Attended by:

Name	Role
Mineh Jami	Scrum Master
Sewara Rashidi	Team Developer
Sonbol Almas	Team Developer
Husna Zala Khan	Product Owner

Meeting subject:

The purpose of the meeting was to review the final increment and have the product owner judge it based on the acceptance criteria. Additionally, the stakeholder feedback will be reviewed, and testing data will be presented.

Meeting Summary:

Mineh Jami (Scrum master): Introduced the meeting, welcomed the participants, reiterated the Sprint Goal and confirmed that October 21 is the final day of Sprint 1, explained the documentation of the Sprint Goal, the finished tasks and the blockers taking place during the sprint. Additionally, she judged the items demonstrated and made suggestions.

Sewara Rashidi(Team developer): Performed the demo which had three parts:
Doctor Search: She logged in as a patient and navigated to the doctor search page. She searched for a doctor with a specialty in cardiology, a doctor test account created with a specialty in cardiology appeared as expected. Next, she searched by name and the test account appeared then too. When the search field was submitted without any data, all available doctors got displayed. When an incorrect name or specialty was entered, an appropriate message was displayed.
Booking Appointments: She clicked on “Show Doctor” as a patient and displayed the appointment booking page, where the doctor’s information, and availability was displayed. In the booking section, she chose a date to show that all time slots on that day will be displayed. She booked an available time slot and showed how it was stored in the database, and how it disappeared from the available appointments when it was already booked. She also displayed what message got displayed when no appointment was

available.
Managing Doctor Availability: She logged in as a doctor and clicked on “Manage availability” where a doctor can add availability and view their availability. She also demonstrated that a doctor could not delete an already booked slot or update it in any way.

Husna Zala Khan(Product Owner): Acceptance criteria were evaluated and confirmed by Husna. She also expressed her satisfaction with the work the team had completed this sprint and deemed the final increment to be perfect.

Sonbol Almas(Team developer): She discussed one of the suggested improvements with Mineh (Scrum manager). The improvement was suggested on the booking page, where clicking the “Show all dates” button would refresh the whole page, and it was proposed to prevent this refresh. Sonbol agreed and said she would work on this improvement.

Key Points of the meeting:

- Sprint Goal and objective was met.
- Demonstration of the working features was successful.
- Final Increment was approved by the product owner.
- No unfinished tasks remained at the end of the sprint.
- Testing results completed.

Notes:

At the end of the meeting, the product owner was asked whether submitting an empty search field should display all available doctors or should this feature change. Husna expressed that it should stay the way it is.
